

TOM O'BRIEN

I appreciate the opportunity to be more involved in the local BC Chapter of the IAAO. Here is a little bit about me. I have a Bachelor of Science from Royal Roads University. Currently, I am the Senior GIS Analyst at BCA head office in Victoria, supervising a team of 4. In my time at BCA I have often worked with the Assessment Division to support the use of technology improving the efficiency of our work, including Desktop Review, Minor Taxing Audit, and ALR Audit. I continue to promote geospatial solutions to assessment challenges at BC Assessment.

I have previous experience on the CUPE1767 Executive as a Regional Director for 5 years (2012-2017). I also have been involved on my strata for the past 5 years, currently as the Vice President for VIS1217 Strata Council.

I want to bring a new perspective and voice to the table, ensuring that geospatial awareness and education is considered in the overall strategy. If elected, I will bring a mixture of executive acumen and technology experience to the IAAO BC Chapter.
