

IAAOBC Chapter members

Your executive is recruiting members for the committees and taskforces that will guide our focused efforts over the coming year. The following brief descriptions provide a very high level view of what each group does. We'd like to encourage all members to take an active role in one or more of these groups. We know that's not always possible for everyone but the degree of active involvement at this level determines the success of our Chapter.

We are looking for contributions of all types and want to match your skills and/or interests with the right mission. You may provide a certain technical perspective, perhaps you are most interested in education, event planning, providing leadership and coordination, technical standards or graphic design. Or maybe you just want to get more involved to see where your interest grows. Either way, now is the time. We need your talent and enthusiasm... and some of your time.

If you have any questions about any of these committees or taskforces, or where you might best fit, we encourage you to reach out to the contacts listed for each.
