

## Pete Alexander, AACI P.App

**Manager, BC Assessment**

Nanaimo, BC

I have been with BC Assessment since 1996, starting in North Vancouver and currently based out of Nanaimo.

My experience has spanned the breadth of Assessment, covering a multitude of property types at various levels within the organization. Over the years the assessment industry has continuously evolved and with the rapid advancements in technology the importance of a strong focus on education and training is greater than ever.

In my work capacity, this dedication to advancing and improving educational opportunities has been a main part of my portfolio, as well as in my current role as Chair of the Professional Development Committee for the BC Chapter.

If elected, I will continue to bring this focus to the BC Chapter, working with IAAO National and other bodies to identify and expand opportunities. Thank you.
