

## Scott Liliedahl, B.Comm, RI(BC)

**Appraiser, BC Assessment**

Kamloops, BC

I am an appraiser on the Modelling Team at BC Assessment. The Modelling Team is on the leading edge of improvement and innovation with respect to mass appraisal for the purpose of producing the annual assessment roll. We are tasked with developing sound statistical predictive models which support the company's strategic goals and vision, while championing our values. It is an exciting role which demands I utilize all my cognitive abilities, and educational foundations. I am challenged to develop relationships with many stakeholders across many divisions of the organization in pursuit of company wide acceptance of the centralized modelling story. I joined BC Assessment in 2011, and envision continuing my career there for the foreseeable future. I am passionate about assessment, and have relished my time with BC Assessment. Prior to joining BC Assessment I have had careers in banking, gaming, and

commercial construction. I joined the BC affiliate of the IAAO in 2022, and am excited to help the Chapter develop membership and professional excellence through promotion and educational opportunities. I found the IAAO this way, and intent to pay it forward.
